Health insurers back call to rename podiatric surgeons

Sydney Morning Herald, General News, 11/12/2023, Charlotte Grieve, Page 20

The health insurance industry has thrown its support behind a push to prevent a controversial group of podiatrists from describing themselves as surgeons. Private Healthcare Australia, which represents the country's largest private health insurers, has called for podiatric surgeons to be renamed "proceduralists" to avoid confusion over their qualifications. [...] Health Minister Mark Butler on Tuesday said that application for public funding was ongoing, despite calling the Herald's investigation "deeply concerning".

Leaving prison later in life: improving care of Australia's older inmates

Medical Journal of Australia, Other, 11/12/2023, Jane Hwang

The relationship between justice system involvement and higher health needs is well established. A lesser known phenomenon, however, is the rapid rise people who find themselves in contact with the justice system at an older age in Australia, making "prisoner health as public health" a more pressing issue. [...] A report by the Australian Institute of Health and Welfare (AIHW) confirms that prisoners over 45 years "are a growing proportion of Australia's prison population; [and] the population of older prisoners is growing at a faster rate than the population of younger prisoners".
