## EXECUTIVE SUMMARY

- **[The Sunday Mail Brisbane](#)** (page 7) reports that a discontinued electrical part found by a tradesman prevented a serious power failure at The Prince Charles Hospital, as an Auditor-General report highlighted risks from ageing hospital infrastructure. Queensland Health denied claims of parts being sourced online or surgery being affected and said it works with suppliers to replace obsolete systems.
- **[The Sunday Mail Adelaide](#)** (page 7) reports that while the toxic algal bloom has mostly cleared in SA, a new cluster has risen off the Yorke peninsula in the last three weeks. Communities on the peninsula are reporting human illnesses, loss of tourism, and the catastrophic death of marine life.
- **[ABC Online](#)** reports that South Australia has seen an influx in cases of Ross River Virus with 106 cases recorded in South Australia in 2025 compared to 25 cases in 2024.

## MINISTER BUTLER

**Our sickening lack of funding**

Leading WA medical researchers have accused the Federal Government's primary funding body of an Eastern States bias, saying it had rejected a "catastrophic" number of grants. [...] A letter to Federal Health Minister Mark Butler questioning the grant allocation that favoured applicants on the east coast was signed by the research leaders from four WA universities, six medical institutes and WA Medical Research Minister Stephen Dawson.

## **Neale Daniher's fight against the 'Beast' is far from over**

Sydney Morning Herald, Other, 24/01/2026, Rob Harris

Neale Daniher used his valedictory address as Australian of the Year to urge governments, the medical sector and the broader public not to lose momentum in the fight against motor neurone disease, warning that despite increased awareness and funding, the task remains unfinished. [...] Meetings with Prime Minister Anthony Albanese, the federal Health Minister, Mark Butler, and most state premiers, he said, helped push forward the need for vital research, expand support for people with MND and place the disease on the national agenda "in a way we've been striving for more than a decade".

## **DEPARTMENT**

### **Further Support at Home shocks**

Both changes should be abandoned for the sake of the older people currently being disadvantaged and the overburdened hospitals where they will find themselves when inadequate arrangements collapse. [...] Second, the Department of Health, Disability and Ageing appears to be making extensive use of the provision in the new Aged Care Act that enables the granting of interim funding at only 60% of the level a person has been assessed as needing.

## ChatGPT ain't Dr Google: things are about to get messy

Health Services Daily, Other, 23/01/2026, Jeremy Knibbs

Forget ambient scribing, AI receptionists and decision support, the real seismic change in how AI is going to affect healthcare providers and government is the new health AI platforms in the hands of your patients. [...] In the meantime, the Department of Health, Disability and Ageing has been doing some important groundwork by getting our government to start changing laws around how providers who have access to their own siloed information on the patient have to start sharing it much more openly with the government (the My Health Record) other providers and patients.

## DISABILITY AND CARERS

### NDIS patient was left to die

Sunday Telegraph, General News, 25/01/2026, Julie Cross, Page 41

The ndis carer of a woman with severe disabilities, who had an epileptic seizure, fell off a bed and died, was most likely either asleep or not in the property when the incident happened, court papers state. Jo Dwyer, 39, of Bendigo, was being monitored for her epileptic seizures, which is why her death was captured on video.

### Nurse claims NDIS cuts are 'death sentence'

Sunday Mail Brisbane, General News, 25/01/2026, Julie Cross, Page 39

A nurse claims NDIS clients are being handed a death sentence after having the right to 24/7 intensive care in the home denied or taken away. Patrik Hutzel, who runs a business employing 150 registered nurses working in people's homes, said three of his clients who had intensive care nursing cut from their plans have died in the last 18 months.

## PRIMARY CARE

### Hi-tech shot in the arm in '26

Sunday Herald Sun, General News, 25/01/2026, Amanda Sheppard, Page 34

Australia is entering a transformative era in health care, with advances ranging from dementia-

preventing vaccines to AI-powered diagnostics and virtual hospitals. Innovations and new technologies are improving early detection, speeding treatment, and bringing high-quality care to urban, regional, and remote communities.

## Electric shock

Sunday Mail Brisbane, General News, 25/01/2026, Jackie Sinnerton, Page 7

The state's leading cardiothoracic hospital was saved from a serious power system failure by a tradie who found a vital discontinued part for the outdated electrical system at the back of his garage. This shocking maintenance dilemma at The Prince Charles Hospital has been revealed amid stunning claims from a former health department electrical engineer that staff have been forced to find parts from eBay and Amazon to help prevent system meltdowns at the Princess Alexandra and QEII hospitals.

[Read Plain Text](#) [Read More](#)

## Our hospitals need to get off life support

Sunday Mail Brisbane, Editorials, 25/01/2026, Page 68

It is there in black and white on page 28 of the Queensland Auditor-General's report just how dire the state of our ageing hospitals is. The 70-page report reveals a shocking hospital maintenance backlog including faulty electrical equipment that was affecting patient care, often resulting in treatment delays.

## POPULATION HEALTH

### Fake turf puts heat on schools

Sun Herald, General News, 25/01/2026, Emily Kowal, Page 3

Hundreds of NSW public schools have synthetic turf on their grounds, it has been revealed, amid concerns about the hot surface's impact on children's health and its environmental risks. A Department of Education survey of 1600 of the state's 2200 public schools conducted late last year found 58 per cent had synthetic turf.

[Read Plain Text](#) [Read More](#)

### Schools are hot enough without synthetic turf

Sun Herald, Editorials, 25/01/2026, Page 32

The mercury is rising as children enter their final week of school holidays, with a string of warm, sunny days forecast after a scorcher today. With the first days of term 1 fast approaching, parents may find themselves reminding their children that the common playground myth that schools shut at 40 degrees is exactly that: a myth.

### Daily tipple a high-risk 'mouthful'

Sunday Telegraph, General News, 25/01/2026, Page 41

Alcohol has long been known to increase the risk of various cancers and now a new study, published in BMJ Global Health, confirms that the risk of mouth cancer is significantly higher in people who have a daily drink. "The mouth is the first place in the body that alcohol comes into contact with," says Dr Jeevan Fernando, a spokesman for Alcohol Change.

Also reported by: [Sunday Herald Sun \(Melbourne\)](#).

[Read Plain Text](#) [Read More](#)

## Punishment shootings surge

Organised crime "punishment shootings" are driving up the number of non-fatal gunshot cases in Victorian hospitals, it can be revealed. The latest emergency department data shows the state's public hospital system treats a gunshot injury, on average, every fortnight, a "major proportion" of which are inflicted by crime figures wanting to warn victims without triggering a murder inquiry.

## **Yorke engulfed toxic bloom's sea of carnage**

Sunday Mail Adelaide, General News, 25/01/2026, Andrew Hough, Page 7

South Australians are falling ill, local tourism is being smashed and marine ecosystems destroyed as the toxic algal bloom devastates some of the state's most picturesque coastline amid mounting criticism of authorities. Swathes of pristine Yorke Peninsula beaches today resemble a "marine Chernobyl" as tens of thousands of dead sea creatures wash ashore and usually "crystal clear" blue waters change colour after the "hotspot" intensified in the past three weeks.

[Read Plain Text](#) [Read More](#)

## **Get help in a heartbeat**

Sunday Mail Adelaide, General News, 25/01/2026, David Goldsmith, Page 32

In a cardiac emergency, every second counts. Research shows around 22 people suffer a cardiac arrest each week in South Australia, with many happening outside of a hospital setting.

[Read Plain Text](#) [Read More](#)

## **Boosting survival chances**

Sunday Mail Adelaide, General News, 25/01/2026, Page 32

South Australia's nation-leading Automated External Defibrillator (AED) legislation will save lives. That's the simple assessment from Heart Foundation South Australia general manager Claire Gardner, top, who says the improved access to lifesaving AEDs across the state is "heartwarming news".

[Read Plain Text](#) [Read More](#)

## **Sickies on the rise**

Sunday Canberra Times, General News, 25/01/2026, Ray Athwal, Page 1

Public servants are taking more time off than at any point in the past decade. New data reveals a growing divide in personal leave taken between front-line staff and their policy-focused counterparts.

[Read Plain Text](#) [Read More](#)

## **State's black market tobacco stain**

Sunday Examiner, General News, 25/01/2026, Hamish Geale, Page 3

The underground market is crushing legitimate Tasmanian retailers. NEW black market tobacco stores opened across Tasmania around the same time the state government announced a crackdown on illegal vapes and cigarettes.
