## EXECUTIVE SUMMARY

- **[The Australian](#)** (page 1) reports unions are urging the government to provide additional funding and staffing for the Thriving Kids program to prevent school staff from becoming overburdened. Minister Butler stated that children with moderate support needs should be assisted through such mainstream, easy to access programs, while those with the most acute disabilities will continue to be supported by the National Disability Insurance Agency.
- **[The Australian](#)** (page 1) reports Ageing Australia has noted that two billion dollars in proposed aged care funding was omitted from the final \$25b dollar deal the Federal Government has just inked with states and territories. While the funding was intended to address hospital bed block, state and territory leaders ultimately chose to direct those resources into the broader public hospital system how they see fit.
- **[The Canberra Times](#)** (page 2) reports the NDIA reported twenty complaints of workplace sexual harassment in the previous year, resulting in two employee terminations for breaches of the APS code of conduct.
- **[The Australian](#)** (page 5) reports the Australian Paediatric Society has warned a Senate inquiry that current childcare regulations create a systemic and preventable clinical risk to children with life-threatening allergies, and is calling for mandatory training for all childcare workers.

- **The Australian** (page 1) reports that despite a legislative requirement, the Victorian Government has missed the deadline for an independent review of the Victorian Change or Suppression (Conversion) Practices Prohibition Act by nearly two years, amidst reports that the law allows for imprisonment of medical practitioners treating children with gender dysphoria.
- **The Australian** (page 2) reports Victoria has issued a measles alert after four confirmed cases were detected in January 2026, all of which were linked to overseas travel to South-East and South Asia.
- **The Hobart Mercury** (page 1) reports the AMA and ANMF have called for the construction of a new Royal Hobart Hospital on a greenfield site, warning that current upgrades will not satisfy future clinical demands for an ageing population.
- **7News** (online) reports leading medical specialists in the AMA and RACGP and peak health bodies have issued a collective warning regarding the escalation of viral health misinformation on social media, identifying it as a primary threat to public safety, calling for greater public scepticism and more rigorous verification of online medical content.

## MINISTER BUTLER

### Helping kids thrive? That will cost you

The Australian, General News, 02/02/2026, Thomas Henry & Sarah Ison, Page 1

Labor is being warned that teachers and school staff cannot be expected to absorb the responsibilities of a program designed to cater for autistic children previously on the NDIS, as unions say the Thriving Kids scheme will fail without additional pay rises and staffing. [...] Health Minister Mark Butler was on Sunday also not able to say how much the disability and health reforms landed by national cabinet last week would save the taxpayer, revealing Labor "hadn't made budgetary decisions about that yet".

Also reported by: [The Australian \(Online\)](#)

[Read Plain Text](#) [Read More](#)

### Thriving Kids savings must not be swallowed by unions

The Australian, Editorials, 02/02/2026, Page 10

As homebuyers with \$600,000 mortgages anticipate an interest rate hike of \$94 a month after Tuesday's Reserve Bank board meeting (\$1128 a year if the rises stop there), the Albanese government's leave pass on fiscal and economic reform must stop. [...] However commendable Labor's goal of reining in annual NDIS growth to 5per cent is, Health Minister Mark Butler was not able to say on Sunday how much the disability and health reforms agreed by national cabinet last Friday would save the taxpayer, saying the detail would "become clearer as we move through our own budgetary process".

[Read Plain Text](#) [Read More](#)

### Give our Logan a fighting chance

Daily Telegraph, General News, 02/02/2026, Charles Chadwick, Page 14

Aussie families affected by a rare childhood cancer are pleading with the Albanese government to fund a trial of a life-saving new treatment. [...] As part of the campaign, which coincides with Neuroblastoma Awareness Week, families, friends and supporters will send personalised postcards featuring images of kids diagnosed with neuroblastoma to federal Health Minister Mark Butler's office at Parliament House.

## No concern over delay to kids' autism program, says PM

Yahoo! Lifestyle Australia, Other, 01/02/2026, Andrew Brown & John Kidman

The delay of an early intervention program for children linked to National Disability Insurance Scheme costs isn't a mark of uncertainty, Anthony Albanese insists. [...] State leaders had previously said they were blindsided by NDIS Minister Mark Butler's announcement of the Thriving Kids scheme in 2025 during a speech at the National Press Club.

[Read More](#)

## ABC News, ABC News at Noon, 01/02/2026, Miriam Corowa

Australians with an aggressive form of prostate cancer will have access to cheaper medicines on the Pharmaceutical Benefits Scheme. Abiraterone acetate and prednisolone (Andriga-10) will help with the treatment of castration-resistant metastatic carcinoma, but without a subsidy, patients are paying \$930 per script. The PBS listing means eligible patients will pay a maximum of \$25 per script, or \$7.70 with a concession card. Health Minister Mark Butler says this scheme must be modern in its approach to be able to offer the best care.

[Play Now](#)

## Channel 10, 10 News (Weekend), 01/02/2026, Georgie Tunny

Prostate cancer is the second most common cause of death from cancer in Australian men each year. Starting today, people with aggressive prostate cancer will now have access to cheaper drugs, with Andriga-10 listed on the PBS for the first time. Health Minister Mark Butler says the new drug is "a combination therapy that does all of the things that the different medicines to date have done."

[Play Now](#)

## Channel 7, Seven News (Weekend), 01/02/2026, Angela Cox & Mark

## Ferguson

Potentially life-saving treatment for aggressive prostate cancer is now more accessible for Australian men. A new combination therapy packing the power of multiple drugs has just been listed on the PBS. Health Minister Mark Butler says it is the most common cancer across the population, with about 30,000 new diagnoses every single year.

[Play Now](#)

## Sky News Live, Sunday Agenda, 01/02/2026, Andrew Clennell

Interview with Health Minister Mark Butler. Butler says there has been a good cooperation between governments to get the NDIS growth rate down to 8 per cent, and with the recent funding deal, both the Commonwealth and state governments have made a commitment to further reduce the growth rate to five to six per cent over the coming years. He claims that states agreeing to increase their NDIS contributions is crucial to make the scheme more sustainable.

[Play Now](#)

## 2SM, 17:00 News (Weekend), 01/02/2026

The Federal Government announced on Friday that it struck a hospital funding agreement with the states and territories, committing to pay an extra \$25 billion to fund public hospitals. Prime Minister Anthony Albanese says the states and territories will, in return, play a greater role in providing disability support services to reduce pressures on the NDIS. Federal Health Minister Mark Butler conceded that if an agreement was not squared away by then, it would be difficult to secure a deal by the time a one-year interim funding agreement expired in June.

[Play Now](#)

## 2SM, 10:00 News (Weekend), 01/02/2026

Thousands of men with an aggressive form of prostate cancer will now be able to access new treatment at a fraction of the price on the PBS. Andriga-10 is a drug designed to provide support by battling metastatic cancer that is resistant to castration. Health Minister Mark Butler says until now, the cost of the medicine has been beyond the reach of many.

### RHH: time to operate

Hobart Mercury, General News, 02/02/2026, Sue Bailey, Page 1

Doctors and nurses are renewing calls for a new Royal Hobart Hospital to be built on a greenfield site by 2035 but the government says it has already spent \$520m on upgrades. The Australian Medical Association and Australian Nursing and Midwifery Federation say, while costly, a new RHH is vital for the health needs of Tasmanians.

### Hospital safety fears after assault

Geelong Advertiser, General News, 02/02/2026, Amelie Blanc, Page 1

Police are investigating a violent attempted robbery in Geelong that has reignited concerns about the safety of hospital workers travelling to and from early and late shifts. [...] Australian Nursing and Midwifery Federation secretary Maddy Harradence said union members had raised "significant safety concerns" involving carparking and security, and were "aware of incidents of nurses being assaulted and threatened".

## **SA Health under fire**

Adelaide Advertiser, General News, 02/02/2026, Brad Crouch, Page 17

The Public Service Association has given SA Health more time to respond to extraordinary claims of bullying and work overload which it claims has led to suicide attempts and mass staff resignations. PSA officials served Central Adelaide Local Health Network (CALHN) officials with a bombshell letter of complaint alleging half the PSA members had quit in the past six months and multiple had tried to take their own lives as a result of work pressure and they had been ignored by management.

### **ABC News, Weekend Breakfast, 01/02/2026, Fauziah Ibrahim & Johanna Nicholson**

Doctors have again raised concerns about the prescription of weight loss drugs by telehealth clinics after a woman was hospitalised with an eating disorder. The Federal Government insists it has not seen a rise in eating disorders related to weight loss drugs, but it is aware of a handful of cases. GPs are now calling for greater government scrutiny of telehealth medical services.
