EXECUTIVE SUMMARY

- The [Sunday Mail Adelaide](#) (page 1) reports the Health Department is considering tighter restrictions on salicylic acid in cosmetic products following concerns about burns and irreversible eye damage. The proposed changes follow an AICIS assessment, with the TGA also recording hundreds of adverse event reports involving the ingredient.
- The [Sunday Mail Brisbane](#) (page 1) reports more than 10,800 nurses have left Queensland hospitals over the past five years, with the Queensland Nurses and Midwives' Union warning staffing shortages are increasing workloads and putting patients at risk.
- The [Sunday Telegraph](#) (page 6) reports an AI system that detected high-risk sepsis cases 90 minutes faster than traditional triage methods will be rolled out across five Western Sydney hospital emergency departments.
- The [Sunday Mail Brisbane](#) (page 6) reports Queensland Health failed to spend \$1.4 billion allocated for hospital infrastructure last financial year, including funding for maintenance and additional bed capacity.
- The [Sunday Tasmanian](#) (page 7) reports four in five patients at Royal Hobart Hospital's emergency department were not treated within recommended time frames last week, with almost 90 per cent of patients with potentially life-threatening conditions not seen on time.

- The [Sunday Age](#) (page 8) reports new standards for women experiencing pain will be released in Victoria after an inquiry involving more than 13,000 submissions found widespread delayed diagnoses and women being dismissed by health professionals.
- [ABC Online](#) reports South Australia spent \$123.7 million last financial year caring for patients awaiting aged care beds, with almost 500 currently stranded in hospital. Health Minister Mark Butler acknowledged rising demand and said the Commonwealth was working with the state to increase aged care supply.

MINISTER BUTLER

New PBS listing cuts cost of life-extending MND drug

Sun Herald, General News, 13/09/2026, Emily Kaine, Page 2

Over the past four decades, Nicole Lynch has watched motor neurone disease strip her family members of their agency and rob years from their lives. [...] "MND is a heartbreaking, insidious disease that Australians are all too familiar with," Health Minister Mark Butler said on Friday.

Conflicting tobacco stats raise concerns

Kalgoorlie Miner, General News, 12/09/2026, Page 11

Labor has been accused of cherry-picking data to justify its approach to illicit tobacco, while ignoring conflicting evidence showing an increase in nicotine consumption. [...] Federal Health Minister Mark Butler said the AIHW survey was "universally recognised as the authoritative source" for smoking trends, showing that daily adult smoking rates had dropped to the lowest level ever at 5.8 per cent, in a press conference in July.

SA aged care bed crisis cost revealed to be over \$123m as patients are stranded in hospitals

ABC Online, Other, 12/09/2026, Stephanie Richards

The South Australian government spent more than \$123 million last financial year caring for patients stranded in hospitals waiting for aged care beds, prompting the state's health minister to call on his federal counterpart to do more to fix the "crisis". [...] Federal Health Minister Mark Butler said the government had "dramatically" expanded support of home packages, but added that he had been "frank" with state ministers, describing the challenges as "a shared responsibility".

[Read More](#)

News24, Saturday First Edition, 12/09/2026, Alex Thomas

From October, Australians living with a rare form of motor neuron disease will have access to Qalsody following its listing on the PBS, and it will only cost \$25 per script. Federal Health Minister Mark Butler says it's a high point for MND Australia and the broader Australian community.

ASSISTANT MINISTER WHITE

A traumatic birth changed Amy's life. Now she wants change for all mothers

7News.com.au, Other, 12/09/2026, Jennifer Bechwati

A Senate inquiry will examine postnatal care in Australia as experts warn depression, anxiety and PTSD are going undiagnosed in new mothers struggling to find support. [...] "We know that a lot of women are suffering, that they don't have the support that they deserve, and that there is a lot more that we have to do to support women once they've given birth to a baby," Assistant Minister Rebecca White said.

[Read More](#)

Channel 7, Seven News (Weekend), 12/09/2026, Angie Asimus

There is a push for overhauling health care for mothers after birth this Women's Health Week, and experts warn that depression, anxiety and PTSD are going undiagnosed as women struggle to find support. Assistant Health Minister Rebecca White says there is more to do to support women once they have given birth.
